

HELP

THE
CHARGING
BULL.

***Would you like the
opportunity to stop the
RAGING FLUORIDE BULL?***

Stopping the Fluoride Bull requires a **MANDATE** from the Sovereign People. Unlike a petition, a mandate is a majority directive from the Sovereign People to their servants, the government, to do or not to do a specific thing.

FREEDOM is about choices and if you choose the right to decide for yourself, based on non-commercial science, whether you want fluoride added to your drinking water, please go to:
www.stimaging.com.au/mandate.html

No government body in Australia has a mandate to mass medicate the population.
